

CRUSADER™

CORROSION PREVENTION TECHNOLOGY

CLEAN.
SAFE.
EASY.

STRONG, TOUGH, PREMIUM FILM

ARMOR POLY® is a comprehensive line of Vapor Corrosion Inhibitor (VCI) films complete with ARMOR's VCI Nanotechnology®. The CRUSADER is at the top of the list for those looking for a film that is strong, puncture resistant and reusable. While all ARMOR POLY films are made from high-tech resins and cutting-edge extrusion technology, the CRUSADER is co-extruded with three, unique layers. This three-layer construction (most VCI films are single layer) positions VCI on the inside, closest to the metal part, and offers a stronger, more durable moisture barrier ideal for extreme conditions or long-term storage.

CRUSADER™ BENEFITS

EASY-TO-USE

rust prevention & containment/barrier

CONTINUOUS PROTECTION

ideal for long-term storage – protection can exceed 3+ years

SAFE

non-toxic, recyclable, environmentally friendly

SEVERAL OPTIONS

rolls, sheeting, bags, tubing

HEAVY-DUTY

three-layer construction for strength and puncture resistance

INNOVATIVE TECHNOLOGY

co-extrusion allows for durability, additional barrier protection and reusability

OPTIMAL VCI PLACEMENT

VCI on the inside – closest to metal part

SEEING IS BELIEVING

patented Bright Idea Technology™ provides visible proof of VCI

TAKING THE WORK OUT OF YOUR WORKDAY

CORROSION MANAGEMENT SOLUTIONS

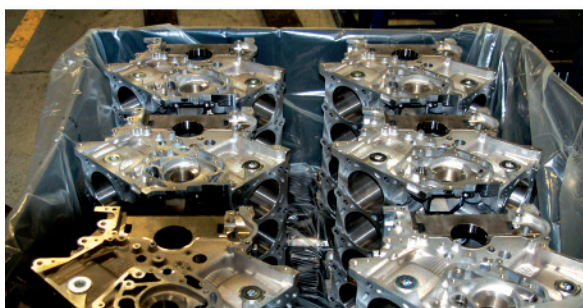

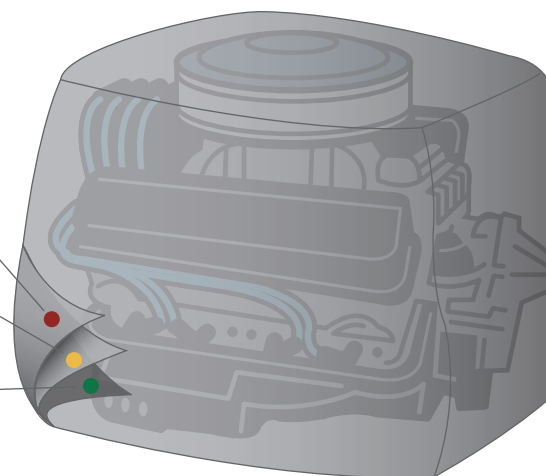

ARMOR CRUSADER™ APPLICATIONS

The CRUSADER was developed for the most demanding corrosion-inhibiting applications. It is co-extruded with 3 layers of film with each layer designed to prevent corrosion, provide additional barrier protection, and to increase durability and puncture resistance. This multi-layer film results in an 80% decrease in oxygen transmission, offering increased barrier protection over standard film. CRUSADER film is ideal for metal parts/equipment in export shipments, bin liners or for long-term storage.

INSIDE LAYER ●
VCI where you need
it most

CENTER LAYER ●
barrier material reduces
oxygen and moisture

OUTSIDE LAYER ●
cost-effective barrier material

ARMOR EXPERTISE

With more than 35 years in the business, Armor Protective Packaging® offers a full line of corrosion inhibiting VCI products that are clean, safe, easy to use and extremely effective.

ARMOR people and VCI solutions protect products and brands.
