

DEFENDER™

CORROSION PREVENTION TECHNOLOGY

**CLEAN.
SAFE.
EASY.**

TOUGH, DURABLE, COST-EFFECTIVE FILM

ARMOR POLY® is a comprehensive line of Vapor Corrosion Inhibitor (VCI) film complete with ARMOR's VCI Nanotechnology®. DEFENDER film is strong, puncture resistant, and economical. While the film's thickness is downgauged by 25 percent, cost savings with the DEFENDER can total 7-15% due to its unique construction resulting in a decrease in the cost of materials while exceeding the material properties of thicker film. The DEFENDER is co-extruded with three layers of film (unlike most single-layer VCI films), a design that allows ARMOR to position VCI closest to the metal part on the inside of the film. The result is high performance, high-level corrosion protection without high cost.

DEFENDER™ BENEFITS

ECONOMICAL

*cost-effective alternative to mono-extruded film
-7-15% savings*

EASY-TO-USE

rust prevention & containment/barrier

CONTINUOUS PROTECTION

*ideal for medium to long-term storage – protection
up to 3 years*

SAFE

non-toxic, recyclable, environmentally friendly

SEVERAL OPTIONS

rolls, sheeting, bags, tubing

ECO-FRIENDLY

25-30% source reduction over comparable films

INNOVATIVE TECHNOLOGY

*co-extrusion allows for durability, additional
barrier protection and downgauging*

OPTIMAL VCI PLACEMENT

VCI on the inside - closest to metal part

SEEING IS BELIEVING

*patented Bright Idea Technology™ provides visible
proof of VCI*

TAKING THE WORK OUT OF YOUR WORKDAY

CORROSION MANAGEMENT SOLUTIONS

ARMOR DEFENDER™ APPLICATIONS

DEFENDER film is designed to prevent corrosion, provide additional barrier protection, and to increase durability and puncture resistance all at an economical price. DEFENDER film provides 50% more barrier protection of comparable mono-extruded film while allowing film to be downgauged by 25-30% resulting in cost savings. Ideal for metal parts needing corrosion prevention and containment or barrier properties in shipping or storage.

INSIDE LAYER ●
VCI where you need it most

CENTER LAYER ●
barrier material reduces oxygen and moisture

OUTSIDE LAYER ●
cost-effective barrier material

ARMOR EXPERTISE

With more than 35 years in the business, Armor Protective Packaging® offers a full line of corrosion inhibiting VCI products that are clean, safe, easy to use and extremely effective.

ARMOR people and VCI solutions protect products and brands.
